MARTIN O'MALLEY
GOVERNOR

INTERAGENCY COMMITTEE ON SCHOOL CONSTRUCTION

DAVID G. LEVER
EXECUTIVE DIRECTOR

LILLIAN M. LOWERY, Ed.D
CHAIRPERSON

**MEMORANDUM**

**PLEASE REVIEW AND RESPOND PRIOR TO JUNE 30, 2014**

**TO:** Dr. Lillian M. Lowery, Mr. Richard Hall, Mr. Alvin Collins, Mr. Thomas Lewis and Mr. Tim Maloney

**FROM:** Dr. David Lever

**DATE:** June 27, 2014

**RE:** Approval of Expedited IAC Agenda Items

---

Enclosed for your review and approval are Sections II, III, IV and VIIII agenda items submitted for expedited processing.

## SECTION II – DISCUSSION ITEMS AND DEFERRED ITEMS

A. Amendment to the FY 2015 CIP – Wicomico County
B. Amendment to the FY 2014 CIP – Somerset County

## SECTION III – APPROVAL OF CONTRACTS

- See summary details in Section III back-up

## SECTION IV – APPROVAL OF SITE

A. Montgomery County – Bethesda Chevy Chase Middle School
B. Montgomery County – Richard Montgomery Elementary School

## SECTION VIII – INFORMATION

A. Change Orders
   See attached material for information only.

C. Change Name/Educational Function
   1) Anne Arundel County – Name Change (Various School)
   2) St. Mary's County – Captain Walter Francis Duke Elementary easement

Approval of these items is recommended. They will be recorded as approved by the Committee at the next IAC meeting.

**Please call prior to June 30, 2014 with your comments and approval.**

## SECTION II-DISCUSSION ITEMS AND DEFERRED ITEMS

### A. CAPITAL IMPROVEMENT PROGRAM: AMENDMENT TO THE FISCAL YEAR 2015 CIP, WICOMICO COUNTY

The Capital Budget of 2014 (SB 171 - Chapter 463 of the Laws of Maryland) specifies that any school construction funds provided for an approved project in the Capital Improvement Program (CIP) that are not spent for the project may, within two years at the option of the Local Education Agency (LEA), be applied to another eligible project in the LEA's FY 2015 CIP or be held in reserve for an eligible project in the LEA's FY 2016 CIP, in addition to new FY 2016 CIP funds allocated to the LEA.

In a letter dated June 18, 2014, Wicomico County Public Schools requested an amendment to the FY 2015 CIP for the Wicomico Middle – HVAC project (priority #5). This project was assigned a "B" status due to fiscal constraints. The LEA has indicated that the HVAC project is even more critical due to the failure of the unit that serves the cafeteria which needs to be replaced before school starts at the end of August. Approval of an amendment to the FY 2015 CIP by the Board of Public Works, will allow the HVAC replacement to proceed as a State-funded project this summer. The LEA requests that the $55,720 held in the reserve contingency account for Wicomico County be used to partially fund this project.

The Designees recommend that the Interagency Committee on School Construction recommend approval of partial funding for the project as an amendment to the FY 2015 CIP. If approved, the project funding will increase from $0 to $55,720 and the balance of State funds due for this project will be decreased from $1,784,000 to $1,728,280.

Motion:

TO RECOMMEND TO THE BOARD OF PUBLIC WORKS APPROVAL OF AN AMENDMENT TO THE FY 2015 CAPITAL IMPROVEMENT PROGRAM FOR WICOMICO COUNTY PUBLIC SCHOOLS FOR THE WICOMICO MIDDLE SCHOOL PSC # 22.015.15 SR HVAC PROJECT, AND TO APPROVE THE TRANSFER OF $55,720 FROM THE FY 2015 STATEWIDE CONTINGENCY ACCOUNT RESERVED FOR WICOMICO COUNTY PUBLIC SCHOOLS IN ORDER TO ESTABLISH A PARTIAL ALLOCATION FOR THE PROJECT IN THAT AMOUNT.

IAC ACTION: THE ABOVE REFERENCED ITEMS WERE:

**B. CAPITAL IMPROVEMENT PROGRAM: AMENDMENT TO THE FISCAL YEAR 2014 CIP, SOMERSET COUNTY**

J. M. Tawes School was approved for funding as part of the Energy Efficiency Initiative (EEI) as a lighting replacement project in the FY 2014 Capital Improvement Program (PSC #19.003.13 EEI). In a letter dated April 16, 2014 the local education agency requested rescission of the EEI project. The Board will initiate a feasibility study shortly to support the eventual renovation of the J. M. Tawes Technology Center. The renovation will include a comprehensive assessment and recommendations to improve lighting and energy efficiency.

Motion:

TO APPROVE THE RESCISSION OF THE FY 2013 EEI FUNDING APPROVAL IN THE AMOUNT OF $100,000 FOR THE J. M. TAWES TECHNOLOGY CENTER LIGHTING REPLACEMENT PROJECT PSC #19.003.13 EEI FOR SOMERSET COUNTY PUBLIC SCHOOLS AND TO AMEND THE FY 2014 CAPITAL IMPROVEMENT PROGRAM TO REFLECT THIS CHANGE, WITH THE REVERTED FUNDS TO BE TRANSFERED TO THE STATEWIDE CONTINGENCY ACCOUNT RESERVED FOR SOMERSET COUNTY PUBLIC SCHOOLS.

**SECTION IV - APPROVAL OF SITES**

## A. MONTGOMERY COUNTY - BETHESDA CHEVY CHASE MIDDLE SCHOOL #2

The Montgomery County Board of Education (MCBOE) requests Interagency Committee on School Construction approval for the acquisition of the 13.39-acre Bethesda Chevy Chase Middle School #2 site located at 3701 Saul Road, Kensington, Maryland 20895. The tract is presently owned by the Maryland-National Capital Park and Planning Commission (M-NCPPC).

The Montgomery County Site Selection Advisory Committee originally considered more than ten (10) potential school sites at the request of community input. The MCBOE approved the selection of the Rock Creek Hills Local Park as the site for the new school. The estimated cost to acquire the site from the M-NCPPC is $39,502,000. This site previously housed a junior high school which was demolished, and part of the original parcel was sold for senior housing.

The new middle school will be a part of an existing sub-division with roads on the east, west and south sides of the school. The new middle school is needed to alleviate the overcrowding at Westland Middle School. The construction of the middle school is expected to be completed in August of 2017. The new school will have a design capacity for 944 students with a core space designed to accommodate 1,200 students. This school site is located in a Priority Funding Area.

### Land Use

- 13.39 acres are deemed usable.
- The current zoning of the area is R-90 (Medium Density Residential Neighborhoods), rezoning is not required.
- The site is most accessible from Saul Road and Haverhill Drive. A public utility easement is needed for utility connection. Also a local Department of Transportation permit is needed to modify existing entrances to existing roadways.
- The MCBOE will comply to the extent possible with separating pedestrians, buses, and cars from each other to maximize on-site safety. Clearing of trees to expand the entrance to the parking and the student drop off loop will be needed.
- Public transportation is readily available.
- The shared after-school community uses contemplated for this site include the use of the basketball courts, tennis courts, soccer fields or baseball fields.
- Once the design of the new school begins, MCBOE will work with M-NCPPC to perform a traffic study as part of their mandatory referral requirements.

### Infrastructure

- The current water/sewage designation for the site and surrounding area is W-1 (Connected) S-1 (Connected).
- Electric service is available.
- Fire hydrants are in the adjacent street and will be provided on site. The Kensington Volunteer Fire Department #5 is 1.5 miles from the existing site.
- There is existing natural gas available within the adjacent street.
- The site is in close proximity to the Town of Kensington, an historic district; correspondence is underway with the Maryland Historical Trust.

**SECTION IV - APPROVAL OF SITES**

**Environmental and Natural Settings**

- A geothermal field will be installed.
- The site does not lie within the 100-year floodplain.
- There are no non-tidal wetlands on or adjacent to the site.
- Storm water management and sediment control measures will be required.
- The percentage of steeps slopes on the site ranges from 30% to 35%.
- There are no waterways on the site.
- There are no hydric soils on site.
- There are no known rare, threatened or endangered species on this site.

Approval of this site is recommended by means of the following.

Motion:

TO APPROVE THE ACQUISTION BY THE MONTGOMERY COUNTY BOARD OF EDUCATION OF THE BETHESDA CHEVY CHASE MIDDLE SCHOOL #2 SITE LOCATED AT 3701 SAUL ROAD, KENSINGTON MARYLAND 20895, ADHERING TO THE ACTIONS IDENTIFIED IN THE STATE CLEARINGHOUSE REVIEW, STATE IDENTIFIER MD20140108-0013 WITH QUALIFYING COMMENTS AND CERTAIN CONDITIONS (SEE ATTACHED STATE CLEARINGHOUSE REVIEW LETTER.)

February 20, 2014

RECEIVED
FEB 26 2014
Department of
Facilities Management

Mr. Peter Geiling
Team Leader, Real Estate Management
Montgomery County Public Schools
45 W. Gude, Suite 4000
Rockville, MD 20850

**STATE CLEARINGHOUSE RECOMMENDATION**
**State Application Identifier: MD20140108-0013**
**Applicant:** Montgomery County Public Schools
**Project Description:** Site Analysis & EAF - Bethesda-Chevy Chase School # 2
**Project Address:** 3701 Saul Road, Kensington, MD 20895
**Project Location:** Municipality(ies) of Montgomery-Town of Kensington
**Approving Authority:** Interagency Committee/Public School Construction Program (IAC/PSCP)
**Recommendation: Consistent with Qualifying Comment(s)**

Dear Mr. Geiling:

The State Clearinghouse has coordinated the intergovernmental review of the referenced school site. This letter constitutes the State process review and recommendation. This recommendation is valid for a period of three years from the date of this letter.

Review comments were requested from the Maryland Department(s) of Natural Resources, Transportation, the Environment; and the Maryland Department of Planning, including the Maryland Historical Trust.

The Maryland Department of Transportation, and the Maryland Historical Trust found this school site to be consistent with their plans, programs, and objectives.

The Maryland Department of Transportation stated that "as far as can be determined at this time, the subject has no unacceptable impacts on their plans or programs."

The Maryland Department(s) of the Environment, and Natural Resources found this school site to be generally consistent with their plans, programs, and objectives, and included certain qualifying comments summarized below.

The Department of Natural Resources indicated that the applicant is to be commended for including green building and landscaping features (such as geothermal space heating/cooling, green roof, and biofilters). Please consider pervious pavement and rain garden in or near the parking lot area to complement these efforts.

The Maryland Department of the Environment (MDE) stated that:

1. Construction, renovation and/or demolition of buildings and roadways must be performed in conformance with State regulations pertaining to "Particulate Matter from Materials Handling and Construction" (COMAR 26.11.06.03D), requiring that during any construction and/or demolition work, reasonable precaution must be taken to prevent particulate matter, such as fugitive dust, from becoming airborne.

2. In Maryland, there are specific performance standards and/or emission rates which must be met when installing boilers or other equipment capable of producing emissions. Prior to installing any of this type equipment, the applicant is requested to obtain a construction and/or operating permit from MDE's Air and Radiation Management Administration. In addition, a review for toxic air pollutants may need to be performed. Please contact the New Source Permits Division, Air and Radiation Management Administration at (410) 537-3230 to learn about the State's requirements and the permitting processes for such equipment.

3. During the duration of the project, soil excavation/grading/site work will be performed; there is a potential for encountering soil contamination. If soil contamination is present, a permit for soil remediation is required from MDE's Air and Radiation Management Administration. Please contact the New Source Permits Division, Air and Radiation Management Administration at (410) 537-3230 to learn about the State's requirements for these permits.

4. Fossil fuel fired power plants emit large quantities of nitrogen oxides (NOx), sulfur oxides (SOx), volatile organic compounds (VOCs) and other air pollutants, which adversely affect the air quality. As an ongoing effort to improve air quality, the MDE supports energy conservation, which reduces the demand for electricity and therefore, reduces overall emissions of harmful air pollutants. For these reasons, MDE recommends that the builders use energy efficient lighting, computers, insulation and any other energy efficient equipment. Contact the U.S. EPA at (202) 233-9120 to learn more about the voluntary Green Lights Program which encourages businesses to install energy-efficient lighting systems.

5. The applicant should be advised that no cutback asphalt should be used from April 16 through October 14.

6. Any above ground or underground petroleum storage tanks, which may be utilized, must be installed and maintained in accordance with applicable State and federal laws and regulations. Underground storage tanks must be registered and the installation must be conducted and performed by a contractor certified to install underground storage tanks by the Land Management Administration in accordance with COMAR 26.10. Contact the Oil Control Program at (410) 537-3442 for additional information.

7. If the proposed project involves demolition – Any above ground or underground petroleum storage tanks that may be on site must have contents and tanks along with any contamination removed. Please contact the Oil Control Program at (410) 537-3442 for additional information.

8. Any solid waste including construction, demolition and land clearing debris, generated from the subject project, must be properly disposed of at a permitted solid waste acceptance facility, or recycled if possible. Contact the Solid Waste Program at (410) 537-3315 for additional information regarding solid waste activities and contact the Waste Diversion and Utilization Program at (410) 537-3314 for additional information regarding recycling activities.

9. The Waste Diversion and Utilization Program should be contacted directly at (410) 537-3314 by those facilities which generate or propose to generate or handle hazardous wastes to ensure these activities are being conducted in compliance with applicable State and federal laws and regulations. The Program should also be contacted prior to construction activities to ensure that the treatment, storage or disposal of hazardous wastes and low-level radioactive wastes at the facility will be conducted in compliance with applicable State and federal laws and regulations.

10. Any contract specifying "lead paint abatement" must comply with Code of Maryland Regulations (COMAR) 26.16.01 - Accreditation and Training for Lead Paint Abatement Services. If a property was built before 1950 and will be used as rental housing, then compliance with COMAR 26.16.02 - Reduction of Lead Risk in Housing; and Environment Article Title 6, Subtitle 8, is required. Additional guidance regarding projects where lead paint may be encountered can be obtained by contacting the Environmental Lead Division at (410) 537-3825.

11. The proposed project may involve rehabilitation, redevelopment, revitalization, or property acquisition of commercial, industrial property. Accordingly, MDE's Brownfields Site Assessment and Voluntary Cleanup Programs (VCP) may provide valuable assistance to you in this project. These programs involve environmental site assessment in accordance with accepted industry and financial institution standards for property transfer. For specific information about these programs and eligibility, please contact the Land Restoration Program at (410) 537-3437.

Our Department (Planning) stated that their finding of consistency is contingent upon the applicant fufilling the requirements noted below.

Planning stated that the Local Education Agency (LEA) will need to contact the Public School Construction program and request in writing site approval from the IAC before construction can begin. In addition, the LEA must also confirm that Program Open Space funding was not used to acquire or develop this park when requesting site approval from the IAC.

**Any statement of consideration given to the comments(s) should be submitted to the approving authority, with a copy to the State Clearinghouse.** The State Application Identifier Number must be placed on any correspondence pertaining to this project. The State Clearinghouse must be kept informed if the approving authority cannot accommodate the recommendation.

Please remember, you must comply with all applicable state and local laws and regulations. If you need assistance or have questions, contact the State Clearinghouse staff person noted above at 410-767-4490 or through e-mail at myra.barnes@maryland.gov.

Thank you for your cooperation with the MIRC process.

Sincerely,

Linda C. Janey

## B. MONTGOMERY COUNTY - RICHARD MONTGOMERY ELEMENTARY SCHOOL #5

The Montgomery County Board of Education (MCBOE) requests Interagency Committee on School Construction approval for the acquisition of the 10.09-acre Richard Montgomery Elementary School #5 site located at 332 West Edmonston Drive, Rockville Maryland 20852. The tract is known as the Hungerford Park Elementary School site and is presently owned by the Montgomery County Government.

The MCBOE closed Hungerford Park Elementary school in June 1982 and the property was transferred to the Montgomery County Government with an option for the MCBOE to reacquire the property, if the site was deemed necessary to meet enrollment growth. The estimated cost of reclaiming the site back from the County government is $29,381,000. The existing school building constructed in 1960 will be demolished. A forest conservation easement on approximately 3.1 acres of the site has been imposed by the county government.

The school site is in close proximity to the elementary school students who will be served by the new school. The construction of the elementary school is expected to be completed in July of 2017. The school is expected to accommodate 600 students in grades 1 – 5, with a design capacity of 740. This school site is located in a Priority Funding Area.

The former school building has been utilized by the County to accommodate the Children's Resource Center (CRC), which includes programs under the Division of Health and Human Services. A feasibility study was performed by the MCBOE, and it was determined that co-locating the CRC with the proposed school facility would compromise the amount of outdoor play space required for both the school and the CRC day care program, as well as encroach on the forest conservation easements that are currently in place. The CRC program will accordingly be relocated to a new site.

**Land Use**

- 7.8 acres are deemed usable.
- The current zoning of the area is R-60 (Residential, one-family, detached). Rezoning is not required.
- The site is most accessible from West Edmonston Drive, Rockville, Maryland 20852.
- There are 4-foot wide sidewalks on the side of the school site.
- The MCBOE will comply to the extent possible with separating pedestrians, buses, and cars from each other to maximize on-site safety.
- Public transportation is in close proximity to the site.
- Once the design of the new school begins, MCBOE will work with M-NCPPC to perform a traffic study as part of their mandatory referral requirements.

**Infrastructure**

- The current water/sewage designation for the site and surrounding area is W-1 (Connected) /S-1 (Connected).
- The developer, Clarksburg Skylark LLC has installed the main lines for the water conveyance system. All connections to the system will be the responsibility of the Montgomery County Public School System.
- Electric service is available.
- Fire hydrants will be provided on site. The Sandy Spring Volunteer Fire Department is 1.8 miles from the existing site.
- There is an existing gas line on site.
- MHT has determined the existing building may have historic value. The Montgomery County Public School system will need to commission a Determination of Eligibility (DOE) Form assessing the National Register eligibility of the existing building, and to submit the form to MHT for concurrence.

**Environmental and Natural Settings**

- The site does not lie within the 100-year floodplain.
- There are no non-tidal wetlands on or adjacent to the site.
- Storm water management and sediment control measures will be required.
- There are no steep slopes on the site.
- There are no waterways on the site.
- There are no hydric soils on site.
- There are no known rare, threatened or endangered species on this site.

Approval of this site is recommended by means of the following.

Motion:

TO APPROVE THE ACQUISTION BY THE MONTGOMERY COUNTY BOARD OF EDUCATION OF THE RICHARD MONTGOMERY ELEMENTARY SCHOOL #5 SITE LOCATED AT 332 EDMONSTON DRIVE, ROCKVILLE MARYLAND 20852, ADHERING TO THE ACTIONS IDENTIFIED IN THE STATE CLEARINGHOUSE REVIEW, STATE IDENTIFIER MD20140204-0070 WITH QUALIFYING COMMENTS AND CERTAIN CONDITIONS (SEE ATTACHED STATE CLEARINGHOUSE REVIEW LETTER.)

**State Application Identifier:** MD20140204-0070
**Applicant:** Montgomery County Public Schools
**Project Description:** Site Analysis & EAF - Property Acquisition of the Richard Montgomery Elementary School #5 (Hungerford Park) Located at 332 West Edmonston Drive, Rockville MD
**Project Location:** Montgomery County - City of Rockville
**Approving Authority:** Interagency Committee/Public School Construction Program (IAC/PSCP)
**Recommendation:** **Consistent with Qualifying Comment(s) and Contingent Upon Certain Action(s)**

Dear Mr. Geiling:

The State Clearinghouse has coordinated the intergovernmental review of the referenced school site. This letter, with attachments, constitutes the State process review and recommendation. This recommendation is valid for a period of three years from the date of this letter.

Review comments were requested from the Maryland Department(s) of Natural Resources, Transportation, the Environment; and the Maryland Department of Planning, including the Maryland Historical Trust.

Our Department (Planning) found this project to be consistent with our plans, programs, and objectives.

The Maryland Department(s) of Natural Resources, and Environment found this project to be generally consistent with their plans, programs, and objectives, but included certain qualifying comments summarized below.

The Maryland Department of Natural Resources indicated that Montgomery County is to be commended for its forest conservation and green roof and environmental site design. Please also consider pervious pavement, living walls for the retaining walls, and the use of other green technologies in the school building such as ground-source heat pumps, solar thermal and photovoltaic systems, and day-lighting to reduce operation and maintenance costs, energy use and pollution while improving the livability and educational environment.
