## **Annual Self-Certification of State-Funded Window Air-Conditioning Units**

As a condition to receiving State funds to purchase window air-conditioning units (and associated electrical upgrades, installation, and security) for schools where more than half of classrooms are not temperature-controlled, a Local Education Agency (LEA) must comply with the Code of Maryland Regulation (COMAR) 23.03.02.11I(2). This regulation requires the LEA to complete an annual self-certification that window air-conditioning units purchased and installed with State funds since October 1, 2016 are operable and have been maintained.
