FORMS: (Separate Attachment)

- A. Form A: Building Age Worksheet (Downloaded through the Application.)

Procedures for the Nonpublic Aging Schools Program - Fiscal Year 2026 (FY26)

A. Introduction/Overview

The Maryland General Assembly is providing \$3,500,000 for the Senator James E. “Ed” DeGrange Nonpublic Aging Schools Program for FY26 (July 1, 2025 – June 30, 2027) in grants for renovations and improvements to existing nonpublic school buildings.

Nonpublic schools (except preschools) that were eligible in Fiscal Year 2025 (FY25) for the Aid to Nonpublic Schools Program for the purchase of textbooks or computer hardware and software for loans to students (commonly known as the “Textbook and Technology Program”) are eligible to apply for the FY26 Senator James E. “Ed” DeGrange Nonpublic Aging Schools Program. Nonpublic schools that serve students with disabilities through the Nonpublic Placement Program R00A02.07 Subprogram 0762 are also eligible.

Payment for work completed under this program will be through reimbursement to the grant recipient – the nonpublic school – from the Interagency Commission on School Construction (IAC). No matching funds are required, but the school shall be responsible for all project costs exceeding the amount of the grant. The maximum grant amount is \$100,000. The minimum grant amount is \$5,000 per eligible school.

Individual grant awards will be based on the number of schools meeting certain criteria. Preliminary awards will be established after all applications have been received and reviewed in Spring 2026. If more eligible schools apply and qualify for grants that exceed the total authorization, the Maryland State Department of Education (MSDE) shall prorate the grant awards. In order to provide some funding to all eligible projects in the last two years, MSDE has reduced the maximum grant amount. In FY25, the maximum grant allocation was \$34,146.32 for schools that met all 3 criteria under Item H in this document.

Schools will have until January 9, 2026, to apply for this grant. Grant recipients will have until June 27, 2027, to contract for approved project work and until March 31, 2028, to request for reimbursement; however, working well ahead of those deadlines ensures time to adequately address any processing errors or issues that might arise. Note that schools must complete and pay for the work in full prior to requesting State reimbursement.

Procedures for the Nonpublic Aging Schools Program - Fiscal Year 2026 (FY26)

B. Eligible Schools

- a) Nonpublic schools eligible to receive aid from the Textbook and Technology Program in FY25 (i.e. School Year 2024-2025) or nonpublic schools that serve students with disabilities through the Nonpublic Placement Program R00A02.07 Subprogram 0762 are eligible for this grant program. Nonpublic preschools are ineligible for this grant. To determine eligibility, take the second prior year tuition revenues (School Year 2023-2024) and divide by the second prior year enrollment (as of September 30, 2023). If the resulting number is less than or equal to \$22,160, then the school qualifies to apply for this program. The \$22,160 figure represents the state average expenditure per pupil for Fiscal Year 2024, based on MSDE's submission for the National Public Education Financial Survey (NPEFS) federal reporting requirement.
- b) School buildings to be improved must have a minimum calculated age of 16 years at the time of the application to be considered an "aging school." The school buildings must have been constructed and occupied before January 1, 2010, to meet the age requirement.
- c) The school must offer kindergarten and/or higher grades. Facilities serving preschool students only are not eligible. For this program, "preschools" mean schools that generally enroll students ages 4 and below and do not provide formal kindergarten programs. Schools serving preschool students and kindergarten or grades above are eligible.

C. Eligible Aging Schools Projects

- a) Eligible projects are capital improvements to nonpublic school buildings and sites that, when completed, will protect the school building from deterioration, improve the safety of students and staff, and enhance the delivery of educational programs. Routine maintenance and repair projects are not eligible.
- b) Projects must be in buildings that are 16 years or older at the time of application. Building system components to be replaced, such as boilers and roofs, must also be 16 years or older.
- c) Projects and components of projects must have an estimated life expectancy of at least 15 years with normal maintenance.
- d) There is no minimum reimbursement request amount. Several separate, eligible projects may be submitted for reimbursement in the same building for the same grant award.
- e) Projects in buildings leased by nonpublic schools are eligible for reimbursement providing that the building owner signs an agreement ensuring repayment of the grant to the State should the school cease occupancy of the building within the 15-year bond period.
